

RBS Boise B63

Simmental

- Boise is a calving-ease deluxe, hundreds of heifers were bred to him with excellent calving-ease results.
- Possibly the calving-ease specialist that puts as much body into his progeny as any sire available.
- Will sire cattle with loads of volume, depth of rib, and fleshing ease.
- Boise sires cattle with sale-ability, there were several sons that sold over \$10,000 this spring, cowmen like them.
- His pedigree is outcross to many of the modern day cattle, you can use him on most cattle as an outcross.
- A true breeding bull used for four breeding seasons, both spring and fall. He has bred over 70 cows naturally for the past four years, excellent conceptions, and no foot or leg issues.
- As a mature bull he is very easy-moving and keeps his condition very well.
- One of the best calving-ease choices, because his calves still have performance.
- Lassel Ranch used over 40 units of semen, Clay and Ryan both commented they felt that their Boise calves were their favorite sire group on the cows and at weaning time, they had more Boise sired bulls over \$10,000 than any other sire group.
- Kenner Simmentals sold 11 Boise sons as their most used black Simmental sire groups. His sons sold very well averaging \$5,700 on 11 head, most sold from \$5,500 to \$11,000.
