# Simmental

- Conoco is one of the top-performance bulls to sell all across America. This year he excels in all the performance traits. He will sire calves that perform in the pasture on feed and on the rail.
- We spent a lot of time searching for a purebred herd sire that offers the genetics to sire calves that weight heavy at weaning and look the part. We wanted a bull that was loaded with eye appeal and the look, Conoco was our choice. He should sire cattle that tip the scale, have eye appeal, and performance. Cattlemen and cattlemen that sell pounds will love his kind.
- Take a look at his EPDs in the top percentiles for weaning and yearling wts, he is a big ribeye bull with excellent yield.
- His sire Blue Print is deceased and we decided to own a son that will carry on his genetic value. We feel Conoco is his top son to date.
- Conoco is the bull that will add volume, a clean profile, and extra pay weight.
- Use Conoco to satisfy the cowman who want calves that weigh up at sale time.
- We expect Conoco to carry on Blue Print's ability to sire jet black calves with presence. The Blue Prints separate themselves easily when it comes to cattle with eye appeal, thickness, and acceptability, among breeders and cattlemen who have used him. Most claim there is no close second.
- Conoco has very impressive performance stats, 205 wt 759, YW 1,447, REA 16.41, Ratio 111, Scrotal 40.

## Semen:

**\$35/unit; \$30 for  
30 or more units.**
