SimAngus™

- Absolutely a stud, Topself was the bull that stood out when you entered a very stout set of bulls at Lassle's, not because of his size, but his balance.
- Believed to be one of the elite 1/2 blood SimAngus™ bulls that sold in the nation this sale season.
- Top Shelf puts it all together with one of the top performance records to be found. Yet when you analyze his EPDs he holds the numbers together right where they need to be in all the top percentiles, but not that erratic top percentile that seems to dictate heifer bull with no real pay wt performance.
- As Lassle Ranch described him phenotypically, this bull is hard to pick apart as he is powerful and yet smooth, balanced, and really sound. #1 yearling wt bull in our sale. Pedigree, phenotype and genotype, this bull puts it all together to be Lot 1.
- Top selling-bull in their sale where 120 bulls averaged \$6,015 per head.
- Out of a no-hole dam that also produced LRS Iconic.
- A total outcross to most Simmental pedigrees, and his Angus genetics are totally fresh to the SimAngus™ breed.
- If you like cattle that are high-volume easy-keeping with eye-appeal, you will love Topshelf.
- Topshelf should be an udder-improver, a trait that is very important to every cowman.
- Topshelf puts a very impressive performance profile together, only 82 lbs at birth, 778 at weaning, and a powerful ADG of 4.34 on only a 42 megal cal ration to post a superb 365 wt of 1,464. Yet only a 6-frame bull that will sire sensible sized cattle at maturity.
- One of Lassle's top-ultrasounding bulls with a REA of 16.03, Ratio 108, IMF Ratio 106, BF Ratio 106.
