## Simmental

- A new young herd sire prospect that jumped through all the hoops and topped the prestigious Bridle Bit Bit sale.
- A calving-ease bull with the performance that separates the men from the boys in a large contemporary group of 38 head. VIP boasts ratios that are off the charts all across the board.

BW/Ratio WW/Ratio YW/Ratio IMF/Ratio BF/Ratio REA/Ratio Frame 89/94 730/109 1,252/111 5.09/123 .27/113 15.07/106 6

- VIP was tested on a grow-safe feed conversion feed efficiency system, where he gained a pound on every 6.31 lbs of feed he consumed.
- A real outcross pedigree for most programs. He offers a new avenue for programs that are backed in to a corner and don't know where to turn.
- His dam is a top-notch Ranch Hand daughter, perfect udder, and teat size, excellent milker, but not too heavy. Perfect foot and leg structure and a very impressive production record.

 <td

- His dam produced the top-selling bull in the Bridle Bit sale the past two years, she produced over \$82,000 for their program in two years. VIP is her natural calf, and representative of what she produces every year.
- VIP offers a superb EPD profile with six traits in the top 10% of the breed or better. Five of them in the top 5% or better including \$API and \$TI.
- VIP offers a heifer safe calving ease with a thick, very attractive profile that predicts his sons and daughters will be easy fleshing and very attractive.
- VIP has a neat little head and attractive front-end, he is smooth from end to end with the softness that many purebred cattle lack. He will cross well on British cattle and produce cattle that work in the pasture, on feed, and on the rail.
- VIP is a 6-frame bull, he should sire cattle that are big enough to grow and perform well, yet sire them so that they mature into sensible-sized, efficient cattle.
- There are very few purebred Simmental bulls out there that can compare to VIP. When you analyze the data from birth to weaning, feed efficiency, yearling and carcass data, and when you check into his dam and grand-dam's record, that is where he separates himself from the rest of the pack.

Semen: \$35/unit – 30 or more units \$30/unit Semen available through owner.
