Sensible sized and efficient

COW EFFICIENCY AT ITS FINEST:

The basis of any good breeding program is the mother cow. Our motto is: **"THE RANCHER COMES FIRST"**. Every breeding decision we make is to improve our customer's bottom line. BEGGER'S DIAMOND V RANCH provides the perfect blend of COW SENSE, COMMON SENSE and SCIENCE. We know the value of a good mother cow, she must be fertile, efficient and problem-free. She must have the staying power to produce a valuable calf year-after-year on her own, with no extra assistance in the environment mother nature provides. She must possess a low-maintenance, easy-fleshing body type that requires little or no extra input. She has to have a problem-free udder and have a good gentle attitude with a set of feet and legs that will serve her until she exits your program at a ripe old age.

- ❖ We are your source for homozygous black and polled Simmental, SimAngus™, Angus genetics, the top 150 bulls out of 275 sell.
- ❖ Many ½ & ¾ brothers sell in volume enabling you to assemble like bred genetics that are predictable and consistent.
- ❖ From a program that does the day-to-day work. We calve, feed, and work around our cattle every day, so we know our cows if they become problematic. They won't see next year and their only way out is through a packing plant.
- ❖ We are straight shooters. We honestly try to answer and meet our customer's questions, needs and concerns. Our bulls come with a complete 100% satisfaction warranty. If there is a problem we will make it right.
- ❖ We provide free bull keep until April, along with a free breeding soundness exam and free delivery, for the first 500 miles on purchases over \$5,000.
- ❖ Every bull walks through the sale ring enabling you to see what you are buying. Some pictures and videos just don't represent cattle as they should.

Raising cattle that work for the cow-calf man, the feeder, and the Packer, while providing an enjoyable eating experience for the consumer should be every cattleman's goal. Ranchers work hard and should expect their cattle to do the same. There are no shortcuts with today's high inputs, your cattle have to be profitable and efficient. Blending EPD and Genomics Traits requires discipline, common sense, and patience. It doesn't matter how impressive the EPD are or the size of calf at weaning. Cattle that lack efficiency and require extra labor and costly inputs are not desirable. This is why common sense and an experienced eye still play a major role in every breeding decision we make. **EXTREMES ARE EASY TO ACHIEVE, BALANCE TAKES DISCIPLINE, PATIENCE, AND A LIFETIME OF EXPERIENCE TO PERFECT.**
